

Product Description

Pioneering GTPase and Oncogene Product Development since 2010

FLT1 RABBIT PAB

货号: S222845 产品全名: FLT1 兔多抗 基因符号 FLT; FLT-1; VEGFR1; VEGFR-1

UNIPROT ID: P17948 (Gene Accession - NP_002010)

背景: This gene encodes a member of the vascular endothelial growth factor receptor (VEGFR) family. VEGFR family members are receptor tyrosine kinases (RTKs) which contain an extracellular ligand-binding region with seven immunoglobulin (Ig)-like domains, a transmembrane segment, and a tyrosine kinase (TK) domain within the cytoplasmic domain. This protein binds to VEGFR-A, VEGFR-B and placental growth factor and plays an important role in angiogenesis and vasculogenesis. Expression of this receptor is found in vascular endothelial cells, placental trophoblast cells and peripheral blood monocytes. Multiple transcript variants encoding different isoforms have been found for this gene. Isoforms include a fulllength transmembrane receptor isoform and shortened, soluble isoforms. The soluble isoforms are associated with the onset of pre-eclampsia. 抗原: Synthetic peptide of human FLT1 经过测试的应用: ELISA, IF 推荐稀释比: ELISA: 5000-240000 种属反应性: Rabbit 克隆性: Rabbit Polyclonal 亚型: Immunogen-specific rabbit IgG 纯化: Antigen affinity purification 种属反应性: Human 成分: PBS (without Mg2+ and Ca2+), pH 7.4, 150 mM NaCl, 0.05% Sodium

Azide and 40% glycerol

- 研究领域: Signal Transduction, Cardiovascular, Cancer, Metabolism
- 储存和运输: Store at -20°C. Avoid repeated freezing and thawing
