

SUPEROXIDE DISMUTASE 1 RABBIT PAB

货号: N225537

产品全名: Superoxide Dismutase 1 兔多抗

基因符号 SOD1; Superoxide dismutase [Cu-Zn]; Superoxide dismutase 1; hSod1

UNIPROT ID: P00441

背景: SOD1, Cu/Zn superoxide dismutase, is a major antioxidant enzyme that catalyzes the conversion of superoxide anion to hydrogen peroxide and molecular oxygen. The mechanism by which mutant SOD1 induces the neurodegeneration observed in ALS is still unclear. Mutant SOD1 proteins become misfolded and consequently oligomerize into high molecular weight species that aggregate and end up in proteinaceous inclusions.

抗原: Synthesized peptide derived from the Internal region of human SOD-1.
