

## TCEA1 RABBIT MAB

货号: N262979

产品全名: TCEA1 兔单克隆抗体

基因符号 SII; TCEA; TF2S; GTF2S; TFIS

**UNIPROT ID:** P23193

**背景:** Necessary for efficient RNA polymerase II transcription elongation past template-encoded arresting sites. The arresting sites in DNA have the property of trapping a certain fraction of elongating RNA polymerases that pass through, resulting in locked ternary complexes. Cleavage of the nascent transcript by S-II allows the resumption of elongation from the new 3'-terminus. Miscellaneous S-II binds to RNA-polymerase II in the absence of transcription.
