

## **Product Description**

Pioneering GTPase and Oncogene Product Development since 2010

## **DKK1 (DM210) RABBIT MAB**

货号: 28553

产品全名: DKK1(DM210) 兔单克隆抗体

基因符号 DKK-1; SK

描述: DKKI antibody(DM210) 兔单克隆抗体

背景: This gene encodes a member of the dickkopf family of proteins. Members of this family are secreted proteins characterized by two cysteinerich domains that mediate protein-protein interactions. The encoded protein binds to the LRP6 co-receptor and inhibits beta-catenin-dependent Wnt signaling. This gene plays a role in embryonic development and may be important in bone formation in adults. Elevated expression of this gene has been observed in numerous human cancers and this protein may promote proliferation; invasion and growth in cancer cell lines.

经过测试的应用: ELISA; Flow Cyt

推荐稀释比: ELISA 1:5000-10000; Flow Cyt 1:100

种属反应性: Rabbit 亚型: Rabbit IgG

纯化: Purified from cell culture supernatant by affinity chromatography

种属反应性: 人 DKK1

成分: Lyophilized from sterile PBS, pH 7.4. 5 % – 8% trehalose is added as protectants before lyophilization.

储存和运输: Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing).
